

July 09

Going for personal growth

Repentance is a key issue and Jesus Lordship of a life is paramount prerequisite for growth. No self based agendas, only total surrender to Jesus and to Jesus Lordship over all life. There is no greater way and no greater calling than to know Him as He really is, and to be able to commune with Him and share His heart. True repentance achieves this and hears His voice calling to the deep places within us to be broken up so that the rivers of living waters, fire and love can flow from deep within each of us.

No poem this week,

just a bit of a squeak

of a line of prose or two.

A bit of thoughtful prose

Turn to the Lord our God

Turn to His grace and Love

Discover that He is your Father

Find He is more than your friend.

A depth awaits – of love and of being

A depth of loving and giving

In real two way relationship

So we humble our hearts before Him

We let go and drop it all

Why carry that pain any longer

Just let go the stress of it all.

Be sure of His rescue for He really knows.

He'll never throw all those stones at you

For He's not the one who betrays

Ask for His help – He knows your pain

How you have tried this and that

Complete surrender - into His agenda

The way forward is simple as that

Trust in His Love and Compassion

Just never take Him for granted

Yield to Him now, today

Life here is just way too slanted

He's the only real help that we have

Turn your heart to see Jesus today

Each today is a new way to see

The eye of our heart is the seat of repentance

“so turn it around to Me” He says

“turn and look at Me”

“Your best picture of Me will do” He says

“Just ask for My help to see”

Sing songs to yourself for that often helps

Reminding our souls to believe

Then you may find in the toil of the mind

There's some space opens up - A reprieve
